

HELLO!

I AM JANČA KLÍMOVÁ 30YO AND THIS IS MY RESUME

ABOUT

I am a web app developer with full-stack background, lately focusing on frontend development. I prioritize comfortable UX, maintainability, efficiency and code reuse.

I've been doing web stuff for over 18 years, 15 years commercially, so not only I know the new stuff buzzing right now, but I've been doing the job when IE 6 and PHP 4 were around and Chrome was not yet a thing.

I have experience with both Windows and Linux stacks, using popular technologies (*like PHP, C#, Python, MySQL, Apache, nginx, IIS, Angular, React, .NET, etc.*) and also not-so-popular ones (*like TAL, ZODB, Plone, Nest, Pug, PHPTAL*).

Over the years I've been using various languages: (*C, PHP, Python, Java, C#, JavaScript, etc.*) Few years back I fell in love with TypeScript and currently I am trying to keep writing vanilla JavaScript to minimum.
