

HELLO!

I AM JANA KLÍMOVÁ ^{31YO} AND THIS IS MY RESUME

ABOUT

I am a **frontend web developer** with rich full-stack background. I prioritize comfortable UX, maintainability and efficiency.

I've over 16 years of professional experience, so not only do I know the new stuff buzzing right now, but I've been doing the job when IE 6 and PHP 4 were around and Chrome was not yet a thing.

I have worked on Windows and Linux stacks, using popular technologies (*like C#, .NET, React, Angular, Vue, Nest, PHP, Python, MySQL, Apache, nginx, IIS etc.*) and also not-so-popular ones (*like Pug, TAL, ZODB, Plone, PHPTAL*).

Over the years I've been using various languages: (*C, PHP, Python, Java, C#, JavaScript, etc.*) Few years back I fell in love with **TypeScript** and currently I am trying to keep writing vanilla JavaScript to minimum in favor of said TS.

Also, to name a few of my favorite tech things that I would like to continue using the most: (*React, Angular, Next.js, Nest, Electron*).
